[Style "Authors\_SB", Times 12 centered]

<sup>a</sup> Lab affiliation, town, country; <sup>b</sup> Lab affiliation, town, country; ... [Style "Affiliation\_SB", Times New Roman 10 centered]

## 1. Introduction [Style "Headings\_SB" Times New Roman 12 bold]

**!! Maximum of 2 pages, 2 figures and 1 table !!**

Standard text [Style "Normal\_SB", Time New Roman font, 10, justified]

Papers must not be more than two pages long in total.

It should include the following sections:

1. Introduction;
2. Methods;
3. Results and discussion;
4. Conclusions;

Acknowledgements;

References.

Note that there is no abstract. Paper must be formatted according to this template. Please use the predefined Styles to format your abstract. You must imperatively respect the **format US Letter** (21.59 × 27.94 cm ou 8.5" × 11").

References should be formatted using the [T&F Standard CSE style](#). Templates exist for reference managers such as Zotero ([here](#)) and EndNote ([there](#)).

It is based on the "author-year" principle. You can cite "the book from Alberts et al. (1994)", or "this interesting book (Alberts et al. 1994)". Multiple references and studies with only one or two authors will be cited as "(Birdwell et al. 1978; Carano and Filvaroff 2003)", respectively. More (much more!) details and subtilities in the style description.

Do not forget to add the keywords and corresponding author's email at the end of the abstract.

## 2. Methods

### 2.1 Subheading [Style "Subheadings\_SB" Times New Roman 12 bold italic]

The scientific committee will analyse your paper and send you its comments as soon as possible. You may have to correct your article according to the recommendations of the scientific committee and resubmit it.

The scientific committee will send you its decision. There are 3 possibilities:

- accepted for presentation to the congress and publication in CMBBE;

- accepted only for presentation to the congress;

- rejected.

Please note that a "presentation" may be either an oral or poster presentation.

Input	1.0	2.0	3.0	4.0
Output	1E+01	1E+02	1E+03	1E+04
